News and Notes

Feb 04, 2011

2010 Census Redistricting Data is now available! According to Public Law (P.L.) 94-171, we must provide redistricting data to the 50 states no later than April 1st of the year following the census. As a result, we are delivering the data state-by-state on a flow basis in February and March. Each table will provide summaries of population totals, as well as data on race, Hispanic origin and voting age for multiple geographies within the state, such as census blocks, tracts, voting districts, cities, counties and school districts. Click the more link to view a full list of the files. These files default to states that have already been released. [more »](#)
