1	17-Acre Site	Other	Sale of Property	This site has an active Memorandum of Understanding with Athens Site Services to develop the site as a Materials Recovery Facility/Transfer Station. Appraisal completed in 2012. No significant change in property value assumed since then.	Memorandum of Understanding w/ Athens Site Services
2	Irwindale Plaza Parking NOW UNDER 'RETAIN FOR GOVERNMENT USE' AS PMP #26	Parking Lot/Structure	Sale of Property	This site contains three parcels that serve as a parking lot for the Irwindale Plaza shopping center. It has a 50-year non-exclusive parking easement through May 15, 2042. The parcels and interest in the easement will be sold to preserve their existing use and support dependent businesses. The Agency has had conversations with the shopping center owner in the past about potentially selling the site to them. The owner agrees to make facade improvements. This would ultimately increase property values and be beneficial to taxing entities as well as the general public.	Documentation of 50-year parking easement
3	Shannon Casket Property	Vacant Lot/Land	Sale of Property	Prior Exclusive Negotiating Agreements for development proposals in the past. Informal negotiations with preferred developers have continued to date.	
4	Gone Point	Other	Sale of Property	Small triangular parcel next to a former mining pit. Prior property assemblage/ redevelopment proposals with adjacent properties.	
5	Jeffries Tire Property	Other	Sale of Property	This site was purchased for property assemblage/ redevelopment. There have been no recent proposals for development. The parcel is very long and skinny; its irregular shape and size makes it difficult to develop.	
6	CalMat Property	Other	Sale of Property	No previous activity. Would like to sell with adjacent AMVETS Facility site to improve marketability and value.

19	Holcomb Property	Other	Governmental Use	HSC 34181.5 (c)(1)(H) The Carpenter portion is currently used as a City storage facility and transfer station and the Holcomb portion consists of a paved lot used for overflow city fleet and school bus parking. The Holcomb portion was originally intended for police department use. The Agency will consider selling Site No. 17 with Site No. 6 if the buyer agrees to a land swap or other mechanism to replace the City storage facility and transfer station.	
20	Former Denny's	Other	Governmental Use	Currently serves as a major stormwater control basin and requires significant facility improvements. The site receives storm water runoff from the I-210 Freeway and adjacent commercial/industrial properties to the north. California case law obligates downstream property owners to accept and make provisions for waters that are the natural flow from land above. The high cost of improvements makes the site undesirable for purchase and development. Redevelopment revenues were previously committed to make necessary improvements, but are not available after dissolution. The former Denny's building is severely dilapidated and scheduled for demolition to address public health and safety issues. The Denny's property is the main access point to the North Kincaid Pit and is needed as a staging area. More detailed information is provided with the exhibits. 19	Holcomb Property	Other	Governmental Use	The Carpenter portion is currently used as a City storage facility and transfer station and the Holcomb portion consists of a paved lot used for overflow city fleet and school bus parking. The Holcomb portion was originally intended for police department use. The Agency will consider selling Site No. 17 with Site No. 6 if the buyer agrees to a land swap or other mechanism to replace the City storage facility and transfer station.	
	Carpenter Property	Other	Governmental Use		
20	Former Denny's	Other	Governmental Use	Currently serves as a major stormwater control basin and requires significant facility improvements. The site receives storm water runoff from the I-210 Freeway and adjacent commercial/industrial properties to the north. California case law obligates downstream property owners to accept and make provisions for waters that are the natural flow from land above. The high cost of improvements makes the site undesirable for purchase and development. Redevelopment revenues were previously committed to make necessary improvements, but are not available after dissolution. The former Denny's building is severely dilapidated and scheduled for demolition to address public health and safety issues. The Denny's property is the main access point to the North Kincaid Pit and is needed as a staging area. More detailed information is provided with the exhibits.
