Comments/Historical Information

The program of medical assistance, funded through the Health Care Deposit Fund, is known as the Medicaid program at the federal level and Medi-Cal or the Medical Assistance Program under California law. The program is funded by approximately 45 percent from the federal government with the balance of the costs shared by the state and the counties.

All federal moneys received under Title XIX of the Social Security Act are deposited in the fund. In addition, the State Controller deposits the counties' share as prescribed in Sections 14150-14156 of the Welfare and Institutions Code and transfers the state's share from appropriations made by the Legislature into the fund.

Initially, the state's share of the cost of the program was based on a complex formula upon which the Director of Finance made transfers from the General Fund to the Health Care Deposit Fund on a monthly basis. For this formula, refer to Chapter 4, Statutes of 1965, Second Extraordinary Session, Section 2. Chapter 1421, Statutes of 1967 provided that, commencing with the 1968-69 fiscal year, funds for the Medical Assistance Program would be provided in accordance with the usual budgetary procedures and made the continuous appropriations from the General Fund inoperative.

The fund was originally accounted for on a full accrual basis. Chapter 21, Statutes of 1969 amended the law to provide that all costs to be charged to the fiscal year in which the billing is received.

Chapter 4, Statutes of 1965 created the fund.

Chapter 21, Statutes of 1969 changed the name of the fund from the State Health Care Deposit Fund to the Health Care Deposit Fund.
