**Purpose**  
The Technology Services Revolving Fund was created to receive all revenues from the sale of technology or technology services, and other services provided by the California Technology Agency, to pay for operating and other expenses of the board and department and costs associated with approved information technology projects, and to establish reserves.

The fund will consist of the following:

1. Money appropriated and made available by the Legislature for the purpose of this chapter.
2. Any other money that may be made available to the department for the purpose of this chapter from any other source, including the return from investments of money by the Treasurer.
3. Payments collected by the department from public agencies for providing services to those agencies that the agencies have contracted with the department to provide.

If the balance remaining in the fund at the end of any fiscal year exceeds 25 percent of the department's current fiscal year budget, the excess amount will be used to reduce the billing rates for services rendered during the following fiscal year.
