Comments/Historical Information
The Nuclear Planning Assessment Special Account was originally created by Chapter 956, Statutes of 1979 to provide for a study by the Office of Emergency Services of the consequences of a serious nuclear powerplant accident. All state and local costs related to carrying out the study, not reimbursed by federal funds, will be borne by the operators of the four existing nuclear powerplants. Each powerplant operator shall initially deposit \$25,000 into the account. The funds in the account were originally continuously appropriated.
Chapter 722, Statutes of 1986 amended the appropriation authority and made these moneys in the fund available upon appropriation by the Legislature.
Chapter 759, Statutes of 1993 amended the code section and changed the purpose of this account. This

fund shall now provide moneys to reimburse state and local agencies for costs not reimbursed by federal funds for the coordination and integration of all emergency planning programs and response plans, with respect to implementing the State Nuclear Power Emergency Response Plan.
