

**Streamlining Affordable Housing Approvals
Trailer Bill Technical Modifications (6-10-16)**

SECTION 1. Section 65400.1 is added to the Government Code, to read:

65400.1. (a) A development applicant or development proponent pursuant to Section 65913.3 of the Government Code may submit information describing the development, including, but not limited to, land use and zoning designations and requested permit(s) for the development to the Department of Housing and Community Development in a reporting format to be made available. The information submitted shall be compiled along with information pursuant to subparagraph (B) of subsection (2) of subdivision (a) of Section 65400 and Section 65588 of the Government Code as follows:

(1) Upon receipt of a local government determination regarding the development submittal.

(2) Issuance of a building permit for the development.

(b) The Department of Housing and Community Development shall annually review and report on its website the information that has been submitted pursuant to this section.

SEC. 2. Section 65913 of the Government Code is amended to read:

65913. (a) The Legislature finds and declares that there exists a severe shortage of affordable housing, especially for persons and families of low and moderate income, and that there is an immediate need to encourage the development of new housing, not only through the provision of financial assistance, but also through changes in law designed to do all of the following:

(1) Expedite the local and State-supported residential development process.

(2) Assure that local governments zone sufficient land at densities high enough for production of affordable housing.

(3) Assure that local governments make a diligent effort through the administration of land use and development controls and the provision of regulatory concessions and incentives to significantly reduce housing development costs and

thereby facilitate the development of affordable housing, including housing for elderly persons and families, as defined by Section 50067 of the Health and Safety Code.

These changes in the law are consistent with the responsibility of local government to adopt the program required by subdivision (c) of Section 65583.

(b) The Legislature further finds and declares that the costs of new housing developments have been increased, in part, by the existing permit processes and by existing land use regulations, and that vitally needed housing developments have been halted or rendered infeasible despite the benefits to the public health, safety, and welfare of those developments and despite the absence of adverse environmental impacts. It is therefore necessary to enact this chapter and to amend existing statutes which govern housing development so as to provide greater encouragement for local and state governments to approve needed and sound housing developments-, and so as to assure that economic contributions by taxpayers and the private sector to support housing are cost-effectively and efficiently deployed to promptly create new housing in locations and at densities that have already been approved by local governments in general plans and zoning codes.

(c) It is the intent of the Legislature that the provisions of Section 65913.3 of the Government Code advance all of the following:

(1) Provisions of Government Code Section 65008.

(2) Implementation of State planning priorities pursuant to Government Code Section 65041.1.

(3) Attainment of Section 65580 of the Government Code.

(4) Significant actions designed to affirmatively increase fair housing choice, furthering the objectives of the Federal Fair Housing Act, 42 U.S.C. 3601, and implementing regulations.

(5) Objectives of the California Global Warming Solutions Act of 2006, commencing with Section 38500 of the Health and Safety Code.

(6) Compliance with non-discretionary inclusionary zoning ordinances adopted by localities.

(7) By right approval for developments that are consistent with objective land-use standards as defined in Section 65913.3(a)(9) and adopted by a locality, including but not limited to housing overlay zones, specific plans, inclusionary zoning ordinances, and density bonus ordinances.

(8) Attainment of sufficient housing to accommodate all local government shares of regional housing need referenced in Section 65584 and improve reporting progress pursuant to Section 65400 for the legislature to amend Section 65913.3 or take additional measures to further attain the State's planning priorities.

SEC. 3. Section 65913.3 is added to the Government Code, to read:

Division 13 of the Public Resources Code shall not apply to either: the Department's adoption of the regulations authorized by this section, or any financial assistance awarded by any public agency to any development that satisfies subdivision (b) of this section. If the documentation described in this subsection fails to identify the objective standard or standards that the development is not consistent with, if it fails to provide an explanation of why it is inconsistent therewith, or if it is not provided to the development applicant or proponent within thirty (30) calendar days of submittal, then for the purposes of this section, the development shall be deemed to satisfy paragraph (2) of subdivision (b) of this section.

Owners of legal parcels adjacent to any development that

obtains by right approval under this section may also obtain relief through a writ of mandate issued pursuant to Section 1085 of the Code of Civil Procedure, the petition for which must be filed within thirty days of the earlier of the adjacent land-owners receipt of written notice of the subject approval, or actual notice of the approval.

(i) The development applicant or proponent may submit information describing the development pursuant to Government Code Section 65400.1(a).

(k) Any and all individuals displaced by a development that is approved through the ministerial process authorized by this section shall be accorded relocation assistance as provided in the California Real Property Acquisition and Relocation Assistance Act, set forth in Chapter 16, commencing with Government Code Section 7260. (m) Nothing in this section shall be construed to expand or contract the authority of local government to adopt an objective standard by ordinance or charter amendment requiring housing developments to contain a fixed percentage of housing units affordable to and occupied by persons of specified lower or moderate incomes. Any affordable housing units shall be credited against the affordable units required to be created pursuant to subsection 65913.3(b)(4).

(n) A locality may adopt and publish a list clarifying its existing objective planning standards that a development must be consistent with as referenced in subsection (b)(2) of this Section.
