MAJOR PROGRAM CHANGES

- **Adult Inmate and Parolee Population**-The adult inmate average daily population is projected to decrease from 163,152 in 2011-12 to 132,167 in 2012-13, a decrease of 30,985 inmates, or 19 percent. The average daily parolee population is projected to decrease from 108,338 to 56,440 in 2012-13, a decrease of 51,898 parolees or 48 percent. These decreases are primarily due to shifting the responsibility of short-term, lower-level offenders from the state to counties pursuant to Chapter 15, Statutes of 2011 and due to reductions in the number of felony probationers entering state prisons. These changes result in a decrease of \$453.3 million in 2011-12 and \$1.1 billion in 2012-13.
- **Mental Health Program**-The average daily population for inmates requiring mental health treatment is projected to be 31,530 in 2011-12 and 30,214 in 2012-13. The Budget includes funding for all necessary positions within the Mental Health Program, consistent with the Mental Health Staffing Ratios presented to the Coleman v. Brown court in 2010. The fiscal impact of appropriately funding the Mental Health Program is an increase of \$34.3 million in 2011-12 and \$27.3 million in 2012-13.
- **Juvenile Ward and Parolee Population**-The average daily ward population is projected to decrease from 1,174 in 2011-12 to 1,149 in 2012-13, a decrease of 25 wards, or 2.1 percent. The decrease in the ward population is primarily due to fewer parole violators being housed in a Division of Juvenile Justice (DJJ) facility as a result of Chapter 729, Statutes of 2010, which shifted supervision responsibility for wards released from DJJ to the counties beginning January 2011. The average daily juvenile parolee population is projected to decrease from 850 in 2011-12 to 656 in 2012-13, a decrease of 194 parolees, or 22.8 percent. The decrease in the ward parole population is primarily a result of shifting supervision responsibility to counties in 2011-12. The population request includes decreases of \$82,000 other funds in 2011-12 and \$51,000 other funds in 2012-13 related to the parole change.
- **Cancellation of Estrella Activation**-A decrease of \$44.5 million to reflect the cancellation of the Estrella Correctional Facility. As a result of the declining adult inmate population, there is no longer a need for the additional Level I and II beds that this project would have provided.
- **California Health Care Facility (CHCF)**-The Budget includes \$10.9 million for pre-activation and activation staffing for CHCF based on the first phase of construction being completed by May 22, 2013. CHCF intake will begin July 22, 2013 and the facility will be fully operational by December 2013.
- **Pharmaceutical Costs**-The Budget includes \$59.9 million for adult inmate pharmaceutical costs, primarily driven by an increase in drug prices.
- **Community Corrections Performance Incentive Grants**-The Budget includes an increase of \$49 million, bringing total funding for the California Community Corrections Performance Incentive Act of 2009 (SB 678) to \$138.2 million. SB 678 established a system of performance-based funding that shares state General Fund savings with county probation departments when they demonstrate success in reducing the number of adult felony probationers going to state prison because of committing new crimes or violating the terms of probation.
- **Transfer Resources to the Board of State and Community Corrections**-A reduction of \$8 million General Fund and \$46.3 million other funds to reflect the transfer of resources from the Corrections Standards Authority to the newly established Board of State and Community Corrections, pursuant to Chapter 36, Statutes of 2011.
- **Restoration of Rehabilitation Services Funding**-The Budget includes \$101 million to restore a prior one-time reduction to rehabilitation services programs.

10 - CORRECTIONS AND REHABILITATION ADMINISTRATION

The objective of the Corrections and Rehabilitation Administration program is to provide policy direction, accountability, administrative oversight, and support to ensure the overall success of all adult and juvenile correctional and rehabilitation programs. In addition, the CSA administers federal and state grants that support collaborative planning efforts and provide funding for county facility construction projects for the purpose of enhancing public safety and conditions of confinement, provides technical assistance and training in planning and program implementation, and conducts research and evaluations. The CSA also sets minimum standards and assists local agencies in meeting these standards for juvenile and adult detention facilities, administers grant funds to maximize the protection of the public while assuring safety of detention staff and offenders in local custody, and is responsible for administering the Compliance Monitoring Program.

The CSA works with local corrections officials to ensure the performance of complex tasks by local corrections professionals, engages the local corrections community in the establishment of minimum standards for personnel selection and training, and is designated by the federal Department of Justice, Office of Juvenile Justice and Delinquency Prevention, as the responsible state planning agency to administer federal juvenile justice and delinquency prevention funds designated for California.

20 - JUVENILE OPERATIONS AND JUVENILE OFFENDER PROGRAMS

The California Department of Corrections and Rehabilitation (CDCR) accepts commitments from California courts provided that the person to be committed was under 18 years of age at the time the offense was committed, can materially benefit from institutional programs, and there are adequate facilities available to care for the individual.

The objective of the Juvenile Operations program is to ensure the operation of safe and secure juvenile facilities, to perform tasks related to routine day-to-day operations of institutions and camps, and to provide juvenile offenders necessary services such as security, feeding, clothing, and facility operations. In addition, this program provides staff training, juvenile offender intake and court services, population management services, facility maintenance, and maintains juvenile offender master files. This program currently oversees operations for four facilities and two conservation camps.

Treatment programs begin by performing diagnostic studies, program assignment, objective setting and progress evaluation, and parole planning for each individual. Based on the results of this evaluation, various counseling and treatment programs are available, including mental health programs (i.e. intensive treatment, specialized counseling, sex offender treatment, special behavior treatment, correctional treatment centers, intermediate care facilities, and general population outpatient services), substance abuse treatment programs, camp programs, and work employability programs.

All curriculum presented to students is infused with values-based character education. Supplemental services include library services, special education, English learner services, basic skills enhancement, high school credit work experience, and community service.

The objective of the Adult Operations - Contracted Facilities program is to reduce overcrowding within the California Department of Corrections and Rehabilitation and to provide meaningful rehabilitative programs in the least restrictive housing. These facilities are the Community Correctional Facilities, Female Rehabilitative Correctional Community Center, California Out-of-State Correctional Facilities, Community Prisoner Mother Program, and Family Foundation Program.

29 - ADULT CORRECTIONS AND REHABILITATION OPERATIONS - INSTITUTION ADMINISTRATION

The Adult Operations - Institution Administration program is responsible for the management and operation of 33 adult institutions, 44 conservation camps, and contracted facilities. The programs maintained by the Division of Adult Institutions are responsible for focusing management's attention on specific program resources to facilitate continuous program improvement and operational reforms. This program is also responsible for providing facility maintenance, asset management, and construction services for CDCR adult facilities and other closed CDCR properties.

30 - PAROLE OPERATIONS - ADULT SUPERVISION

The Parole Operations - Adult Supervision program has as its primary objective, consistent with the need for public safety, increasing the rate and degree of successful reintegration and release to society of offenders paroled from state prison. The program is responsible for providing direct supervision, surveillance, and necessary apprehension of the state's parolee population. The main components of supervision include Global Positioning System (GPS) monitoring and general caseload supervision.

Standard and specialized caseloads and the degree of supervised monitoring are determined by case factors related to the offender's propensity for violence, past criminal history, and current service needs. When case assessments indicate, parolees are placed in a higher supervision category intended to prevent, detect, or interrupt behavior likely to endanger the community. Case supervision, reassessment, and reclassification, based on parolee behavior and stability in the community are regularly scheduled.

The other integral program component is the Parole Planning and Placement Program which identifies parolee needs and matches them with state and local programs to ensure a successful transition into local communities.

31 - PAROLE OPERATIONS - ADULT COMMUNITY BASED PROGRAMS

Parole Operations - Adult Community Based Programs utilizes a variety of rehabilitation and assistance programs designed to promote successful reintegration of parolees, while protecting public safety. These programs include, but are not limited to, Drug Treatment, Transitional Housing for Parolees, Parolee Services Centers, and Police and Corrections Teams. The Program also includes a full continuum of transitional programs, including evidence-based substance abuse treatment, preparation for inmates released on parole, and community-based continuing care upon parole. Parolees who did not receive in-prison treatment are also eligible for community-based residential and outpatient treatment.

The Program also provides mental health services/treatment to parolees through the Department's Parole Outpatient Clinics. The objective of these services is to ensure public safety and to reduce recidivism through the stabilization and monitoring of the parolees' mental health issues.

32 - PAROLE OPERATIONS - ADULT ADMINISTRATION

The Parole Operations - Adult Administration programs work in conjunction with those in the field to ensure the safety of the public and parolees. In addition to the headquarters office, the Office of Training and Professional Development, the Sex Offender Management Board and SARATSO Review Committee, and the Office of Correctional Safety ensure that field personnel are properly trained, sex offender treatment and supervision policies mirror national standards, and field

operations run smoothly.

35 - BOARD OF PAROLE HEARINGS - ADULT HEARINGS

The objective of the Board of Parole Hearings - Adult Hearings is to promote public safety through fair parole processes and decisions and to provide the required due process to inmates throughout the hearing process.

For adult offenders, the Board of Parole Hearings is responsible for setting the terms and conditions of parole; conducting parole consideration hearings for eligible inmates serving life sentences; conducting probable cause hearings and parole revocation hearings for parolees charged with violating parole; issuing warrants; medical parole; and determining whether parolees should be considered for discharge from parole. Screenings are also conducted for mentally disordered offenders and sexually violent predators, and subsequent hearing referrals are made to the Department of Mental Health. In addition, at the Governor's request, the Board investigates applications and forwards recommendations for pardons and commutations of sentence, including those involving the death penalty. It also has the discretion to recommend to the court that a prisoner be re-sentenced in situations calling for compassionate release.

For juvenile offenders, the Juvenile Parole Board is responsible for discharges of commitment, orders for discharge from the jurisdiction of the Division of Juvenile Facilities to the jurisdiction of the committing court, revocation or suspension of parole, and disciplinary appeals.

36 - BOARD OF PAROLE HEARINGS - ADMINISTRATION

The Board of Parole Hearings - Administration handles administrative duties in support of the Board's headquarters and field operations. The Administration is comprised of the Executive team; the Administrative Services Division, which handles the business services functions for the Board; and the Workforce Development Unit tasked with ensuring compliance with the numerous court mandates affecting parole and hearing processes.

The delivery of services is monitored and improved through the analysis of program service data.

50 - ADULT HEALTH CARE SERVICES

5227 Board of State and Community Corrections

The mission of the Board of State and Community Corrections (BSCC) is to provide statewide leadership, coordination, and technical assistance to promote effective state and local efforts and partnerships in California's adult and juvenile criminal justice system, including providing technical assistance and coordination to local governments related to realignment. This mission reflects the principle of aligning fiscal policy and correctional practices, including prevention, intervention, suppression, supervision, and incapacitation. The goal is to promote a justice investment strategy that fits each county and is consistent with the integrated statewide goal of improved public safety through cost-effective, promising, and evidence-based strategies for managing criminal justice populations.

The BSCC is organized into the following programs:

- Board of State and Community Corrections Administration and Program Support
- Corrections Planning and Grant Programs
- Local Facility Standards and Operations
- Standards and Training for Local Corrections

Legislation associated with the 2011 Budget Act abolished the Corrections Standards Authority (CSA) within the California Department of Corrections and Rehabilitation and established the BSCC as an independent entity, effective July 1, 2012. The BSCC will absorb the previous functions of the CSA as well as various other public safety programs previously administered by the California Emergency Management Agency.
