

July 15, 2008

Mr. Kyle Schiller, Director of Business Management
The GEO Group, Inc.
Western Region Office
5900 La Place Court, Suite 120
Carlsbad, CA 92008

Dear Mr. Schiller:

Final Audit Report—Golden State Modified Community Correctional Facility, Contract R96.134

The Department of Finance, Office of State Audits and Evaluations (Finance), has completed its compliance audit of Golden State Modified Community Correctional Facility (Facility).

The enclosed report is for your information and use. The Geo Group's response to the report findings are incorporated into this final report. Please submit an updated corrective action plan to Finance and the Department of Corrections and Rehabilitation, Community Correctional Facilities Administration, within 30 days of receipt of this report.

In accordance with Finance's policy of increased transparency, this report will be placed on our website.

We appreciate the assistance and cooperation of the Facility. If you have any questions regarding this report, please contact Richard R. Sierra, Manager, or Zach Stacy, Supervisor, at (916) 322-2985.

Sincerely,

Appendix B—Supplemental Information:	
Inmate Welfare Fund.....	6
Inmate Telephone Revenue Fund.....	7
Facility Response.....	8

EXECUTIVE SUMMARY

The California Department of Corrections and Rehabilitation (Corrections) contracted with The GEO Group, Inc., for operation of the Golden State Modified Community Correctional Facility (Facility). The GEO Group, Inc. is responsible for providing inmate housing, sustenance, and coordinating inmate activities within the Facility. Under the direction of on-site Corrections staff, The GEO Group also assists with inmate custody and Facility security. The Facility is located in McFarland, Kern County, and is designed to accommodate an average daily population of 600 male inmates.

Corrections requested the Department of Finance, Office of State Audits and Evaluations (Finance), to perform a fiscal compliance audit of contract R96.134.

Review Results

The Facility has resolved the prior findings reported in Finance's November 1, 2006 audit report; however, one new finding was identified, as summarized below. For further details, refer to the *Finding and Recommendations* section of this report.

- **Misstated Statements of Revenue and Expenditures:** Salaries in the Facility's Statements of Revenue and Expenditures were overstated by \$21,257 in fiscal year 2006-07. Additionally, Operating Expenses were understated by \$41,510 in 2006-07.

BACKGROUND, SCOPE, AND METHODOLOGY

BACKGROUND

The California Department of Corrections and Rehabilitation (Corrections) administers the Community Correctional Facility Program (Program). The Program is intended to ease overcrowding in state institutions, reduce the need for building new state correctional institutions, and provide a financial benefit for the local community in which a facility is located. The Community Correctional Facilities Administration within Corrections is responsible for the on-site administration of the Program.

Penal Code Section 6256 authorizes Corrections to enter into contracts with appropriate public and private entities to provide housing, sustenance, supervision, inmate work incentive programs, education, vocational training, pre-release program assessment planning, and other services, as stipulated. Of the seven contracts awarded to private entities under this Program, one was awarded to The GEO Group, Inc., for the Golden State Modified Community Correctional Facility (Facility).

As stipulated by contract R96.134, the Facility's funding is a combination of flat rate expenditure reimbursement and per diem funding. In fiscal year 2006-07, the Facility received annual flat rates of \$2,034,840, \$94,356, and \$53,745 for the facility use, pre-start up expenses, and energy deficiency, respectively.

Also during 2006-07, the Facility received per diem rates of \$30.20, \$26.58, and \$25.14 for 500 Design Beds, 25 Over Crowding Beds, and 75 Over Crowding Beds, respectively, per participant per day (up to a maximum annual amount of \$6,442,267). The per diem reimbursement is to cover various contract expenditures, including salaries and benefits, food, transportation, consulting/contracted services, operating expenses, property taxes, general liability insurance, and administrative overhead.

The Facility is required to account for funds separately. Below is a description of each fund held by the Facility:

- *Inmate Welfare Fund*—A fund operated for the benefit and welfare of the inmates who are under the jurisdiction of Corrections.
- *Inmate Trust Fund*—A fund that accounts for the funds belonging to the inmates through work performed or money received from family or friends.
- *Telephone Revenue Fund*—Special program funds received for inmate telephone services designed for specific activities, as outlined in the contract.

SCOPE AND OBJECTIVES

Under an interagency agreement with Corrections, the Department of Finance, Office of State Audits and Evaluations (Finance), performed a fiscal compliance audit of contract R96.134 between The GEO Group of Golden State Modified Community Correctional Facility (Facility) and Corrections. The audit objectives were to:

- Determine whether the Facility's cost reports accurately represent revenue received and expenditures incurred for the period July 1, 2006 through June 30, 2007.
- Determine whether the Facility's internal control allows for the accurate and timely development of cost reporting data and adequate safeguarding of state assets.
- Determine the Facility's compliance with the contract's fiscal and reporting requirements.
- Determine if the Facility had implemented corrective action for findings issued in Finance's previous audit report dated November 1, 2006.
- Review the activities and contract compliance of the Inmate Welfare Fund and Inmate Trust Fund for the period October 1, 2006 through December 31, 2007.
- Review the Inmate Telephone Revenue Fund and verify the cash balance as of February 29, 2008.

METHODOLOGY

In order to determine whether the Facility's cost reports are accurate, information reported on the cost reports was traced to the Facility's general ledger and subsidiary ledgers. Revenue and expenditures reported in the Facility's general ledger were assessed for reasonableness. Additionally, a sample of receipts and disbursements was selected and traced to supporting documentation.

To ensure the Facility maintains an effective internal control system, an understanding of the Facility's internal control was obtained through inquiries and observations of Facility staff. A selected sample of receipts and disbursements was traced to supporting documentation to determine the Facility's compliance with the contract's fiscal and reporting requirements. A review of the contract agreement, Corrections' *Department Operations Manual*, and the *Financial Management Handbook for Private Community Correctional Facilities* dated January 1995 (Handbook) was performed to determine that selected items met eligibility requirements.

To determine if the Facility implemented corrective action for the prior audit findings, we reviewed the prior audit report dated November 1, 2006 and the Facility's response to that report. To determine what steps the Facility had taken to resolve the findings, staff were interviewed and current processes and records were reviewed.

The funds (Inmate Welfare Fund, Inmate Telephone Revenue Fund, and Inmate Trust Fund) were reviewed for completeness and propriety. Our review included the following:

- General internal control assessment.
- Review of the Facility's general ledger and/or subsidiary ledgers.
- Identification of fund transfers.
- Determination of whether transfers met eligibility requirements.

- Assessment of fund disbursements.
- Investigations of unusual transactions.
- Verification that the Facility maintained the funds in accordance with contract requirements.

Findings are presented in the *Finding and Recommendations* section of this report. Immaterial, non-reportable issues and observations were discussed with Facility representatives. The appendices include schedules of financial related information that is presented for additional information and analysis.

Recommendations were developed based on contract requirements and guidelines set forth in the Handbook. This review was conducted during the period February 2008 through March 2008.

We conducted our audit in accordance with *Generally Accepted Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to provide an independent assessment of compliance with contract R96.134, to provide information to improve accountability, and to facilitate decision-making by parties with responsibility to oversee or initiate corrective action. Because our objective was not to perform a financial statement audit, we do not express an opinion on the financial information presented in the Appendices. Furthermore, our evaluation of the Facility's internal control and tests of compliance was not to provide assurance on the Facility's internal control as a whole, or to provide an opinion on compliance. Accordingly, we do not provide such assurance or express such an opinion.

This report is intended solely for the information and use of Facility and Corrections management, and is not intended to be and should not be used by anyone other than the specified parties. However, this restriction is not intended to limit the distribution of this report, which is a matter of public record.

FINDING AND RECOMMENDATIONS

FINDING 1 Misstated Statements of Revenue and Expenditures

Condition: The following errors were found in the Statements of Revenue and Expenditures (Statements):

- A. Salaries reported in supporting schedules 3.1, 3.2, and 3.3 did not agree with the quarterly payroll registers.
- B. Disallowed salary costs, such as incentive bonuses, settlements, and car allowances were incorrectly deducted from operating expenses and not offset against salaries.

The misstatements are summarized as follows:

Fiscal Year 2006-07	Salaries (Over) Understatement	Operating Expenses Understatement
A. Salaries not in agreement with payroll register	\$ 20,253	N/A
B. Misclassified salary adjustments	\$(41,510)	\$41,510
Net (Over) Understatement	\$(21,257)	\$41,510

Criteria: *The Financial Management Handbook for Private Community Correctional Facilities* dated January 1995 (Handbook), Section IV.B, page 13, states that all costs will be supported by sufficient, competent, and relevant source documentation. The Handbook, Section III.A, page 10, states that Corrections will consider the actual costs as submitted in the Statements for negotiations of future contract per diem rates.

- Recommendations: A. Ensure salaries reported in the Statements agree with the payroll registers.
- B. Properly offset unallowable salary expenses, such as incentive bonuses, settlements, and car allowances against the related salaries.

APPENDIX A

SCHEDULE OF BUDGETED, REPORTED, AND
QUESTIONED REVENUE AND EXPENDITURES

**Golden State Modified Community Correctional Facility
Contract R96.134
Schedule of Budgeted, Reported, and Questioned Revenue and Expenditures

Dear Mr. Botelho:

This letter is in response to the audit of the Golden State Modified Community Correctional Facility, Contract R96.134 between the California Department of Corrections and Rehabilitation ("CDCR") and The GEO Group, Inc. ("GEO") dated April 2008. The audit includes certain follow-up review determinations, reportable findings and recommendations. The following is our response to the findings as outlined in the audit:

Finding 1: Misstated Statements of Revenue and Expenses

- A. *Salaries reported in supporting schedules 3.1, 3.2 and 3.3 did not agree with the quarterly payroll registers.*

GEO will ensure the salaries reported in the Statements agree with the quarterly payroll registers. Please note the understated salaries of \$20,253 in fiscal year 2006-07 represents less than .7% of the total salaries reported.

- B. *Disallowed salary costs, such as incentive bonuses, settlements and car allowances, were incorrectly deducted from operating expenses, and not offset against salaries.*

GEO was reporting unallowable salary expenses as an off-set to operating expenses; GEO will now deduct unallowable salary expenses from salary expenses as recommended. Please note there is no net affect to the Statement's bottom line, as this is an expense reclassification.

GEO appreciates the professionalism of the Department of Finance and their personnel during the audit of the Golden State Modified Community Correctional Facility. We believe we have provided quality and professional services to the Department of Corrections and look forward to building on our successful relationship.

Very truly yours
